Composite insulating gloves

See online
technical sheet

/ Standards

EN 60903 / IEC60903

/ Use

- Composite insulating gloves for safe working without leather overgloves
- High mechanical risk maintenance operations

/ Technical specifications

- Latex gloves with orange-red elastomer outer layer, black inner layer, cut edges
- Special properties (category) RC, with mechanical protection.

/ Table legend

Complete the reference with the desired size

Advantages

- Gloves with reinforced mechanical protection avoiding the use of leather overgloves
- Product composed of high performance polymer blends combining mechanical, chemical and dielectric resistance
- Specially formulated outer coating ensures exceptional grip, even in wet or greasy conditions
- Complete range with all classes up to class 4
- Pair of cotton under-gloves, delivered with each pair of insulating gloves, allowing the absorption of sweat, and better hygiene, while preserving dexterity.
