/ TAG780R

LV voltage detector with phase rotation indication

/ Standards

- CEI 61243-3
- Overvoltage category : IV
- CE compliant

/ Advantages

- Affichage nouvelle génération ultra lumineux

/ Technical specifications

- **Power type** : Direct power, Alternating power
- **Network frequency (Hz)** : 50/60
- **Condition of use** : Inside, Outside
- **Battery type** : AAA battery
- **Tightness protection** : IP65
- **Operating voltage min (V)** : 12
- **Operating voltage max (V)** : 1000
- **Color** : Black
- **Auto test**
- **Packaging** : Textil bag
